

# Jonezetta, The Love That Carries Me

She found a way to get away from all  
Her stupid little things  
She says it's hard to stay away from all  
The love that carries me

Sorry, sorry, but my words mean nothing  
When the chorus dies does it kill you to be alone?

So get the town to buy the song they'll play  
As many times as they can  
She'll sing the melody over me  
But baby don't understand

No baby never understands  
The love that carries me

Now they're never playing  
It's so frustrating  
How they play it again  
And play it again  
The love that carries me

Play it out!  
Sing it out!  
Alone again
