

# Joni Mitchell, Midsummer's Night's Dream

Midsummer rain, you and I together  
I'm only dreaming again and I will forever it seems  
Midsummer dawn, kisses in a doorway  
I can't believe they are gone so  
I live our story in dreams

But baby I always wake up lonely  
Mornings don't comfort me  
Sometimes I think you're only  
A midsummer's night's dream

I should have know, friends gave me warning  
You had a dream of your own  
Now our midsummer mornings are through  
Follow your star, it will lead you somewhere  
Love is not really so far if in dream  
I can come there to you

But baby I always wake up lonely  
Mornings don't comfort me  
Sometimes I think you're only  
A midsummer's night's dream
