

# Jonny Lang, Rainy Day Blues

My friends and I don't like to play out in the rain  
My friends and I don't like to play out in the rain  
We'd rather stay inside a warm house and play a game  
We'll play checkers, monopoly  
Any game you wanna play  
They all sound good to me  
Rainy day blues (I've got those blues)  
Rainy day blues (I've got to shake those blues)  
You got nothing to lose except your rainy day blues

There's no need to frown when your skies are gray  
Oh you can have fun on a rainy day  
Your friends can help you send your blues away  
Your imagination can take you very far  
Be anything you want to, no matter who you are  
Rainy day blues (I've got those blues)  
Rainy day blues (I've got to shake those blues)  
You got nothing to lose except your rainy day blues

I turn on my TV, along came the news  
The weatherman's singing the rainy day blues  
But it's all right, it's all right, it's all right, it's all right  
I'm gonna turn up the music  
And dance my blues away

My friends and I don't like to play out in the rain
