

# Jonny Lang, To Love Again

I been sleeping way too long  
Searched for the answers but  
Couldn't find one  
Thought I had it under control  
Yet I was dyin', I didn't even know

I needed something  
You showed me how to love again  
To love again  
When I had nothing  
You showed me how to love again  
How to love again

No more cryin', no more fear  
I found a way out after all of these years  
No mistakin, I been changed  
Not waitin' forever, I'll never be the same

When I had nothing  
You showed me how to love again  
To love again  
I needed something  
You showed me how to love again  
How to love again

Don't wanna go back  
Don't wanna go through the misery  
I love where I'm at  
Wherever you are I want to be  
You're all I need

I needed something  
You showed me how to love again  
How to love again  
When I had nothing  
You showed me how to love again  
How to love again
