

# Jonny Was, Billie Jean Is M.I.A.

She said  
She said  
And all the things that you had to know  
I look in the mirror wash my face  
I try to tell myself you needed space  
She says Im sorry its just a passing fling  
Its hard not to watch the phone until it rings  
She said  
How can you be so thick headed?  
You cannot see whats in front of you  
Will it take an act of God to make you understand?  
Or do I hold your hand to prove to you  
I see you standing there  
You run your fingers through your hair  
And you stare at me  
I see you stare at me  
And then the feeling changes  
I dont know where your smile has gone  
Were back to friends again  
Just back to friends again  
Can you tell me why I liked you?  
When you dont act the same way I do  
Maybe one day youll see what you threw away  
And maybe that day we will run away  
She said  
Oh!  
Take a walk with me  
Ill show you how great we can be  
Dont turn your head  
Did you hear what I said?  
Well, Ill give you some time  
To think it over in your mind  
I have to make it clear  
I cant wait for years  
Take a walk with me and hold my hand  
And I will try to make you understand (x4)  
Take a walk with me and hold my hand  
And I will try to make you understand(x 3)  
Take a walk with me and hold my hand
