

# Jordan Pruitt, Always

I'll take the chance to say  
I feel this emptiness  
When you walk away  
And now I must confess  
That it's not the same  
Without you here with me  
Then the rain goes away  
When I see that face  
Like a summer day  
The clouds just get to raised  
It never ceased to amazed  
Every time you're here with me

I reach for your hand  
At night I pray  
Together we'll find  
Find a way  
To be in love  
Starting today  
Always

I reach for the words  
Speak from my heart  
They fall to the ground  
Fall apart  
It's so hard to feel this way  
Always

When the moon appears  
I'd like to make a wish  
Wishing you were here  
[Missing two lines]  
Every time you're here with me

I reach for your hand  
At night I pray  
Together we'll find  
Find a way  
To be in love  
Starting today  
Always

I reach for the words  
Speak from my heart  
They fall to the ground  
Fall apart  
It's so hard to feel this way  
Always

Somehow I have known you  
Let's see where this goes to  
Coz we're just beginning  
I love how it's feeling  
When I reach for your hand  
At night I pray  
Together we'll find  
Find a way  
To be in love  
Starting today  
Always

I reach for the words  
Speak from my heart  
They fall to the ground

Fall apart  
It's so hard to feel this way  
Always
