

Jordan Pruitt, Celebrate Love

Light up the candles dim all the lights
Now let the magic begin
There's peace in our hearts as we feel the love from within
Good friends of Gavin loves in the air
Everyone's singing a carol or sayin a prayer
So lets

Celebrate love in this season of giving
Let's make the most of this time
Don't let this feeling be taken for granted
We'll keep it right here in the mind
Celebrate joy for the child was sent us
To show how to live without fear
Praise the one who joined us here
And since he's what were all made of
Lets celebrate love

Year after year time after time
Christmas is special to me
All of these memories will last for a lifetime you'll see
Never to young never to old
To hear of the wonder whenever the story is told
So lets

Celebrate love in this season of giving
Let's make the most of this time
Don't let this feeling be taken for granted
We'll keep it right here in the mind
Celebrate joy for the child who was sent us
To show how to live without fear
Praise the one who joined us here
And since he's what were all made of
Lets celebrate love

Celebrate love
Yea
So lets

Celebrate love in this season of giving
Let's make the most of this time
Don't let this feeling be taken for granted
We'll keep it right here in the mind
Celebrate joy for the child who was sent us
To show how to live without fear
Praise the one who joined us here
And since he's what were all made of
Celebrate love
