

Jordan Pruitt, I'm Gone

CHORUS

I don't believe in us anymore, oh
Don't know why I even tried for so long
I'm gone

Sit back got a story now
About a a guy that I fell in love with
Started out so beautiful
Went down, down, never forget
He used to care
Used to take me everywhere
Make me feel loved, loved, so loved

(Chorus)

Hey girls just looking out
You gotta see their perfect one that
Tell you what you wanna hear than do the opposite
If he don't call when he says he's gonna call
Than delete his number and just forget him
(just forget him)

(Chorus)

Been waiting for the day
That I don't have to wait
For a guy that won't be late
Won't be afraid to give me his heart
Cause I'm not gonna try
If you're not gonna try
You can go, you can leave right now

(Chorus)
