

# Jordin Sparks, 100 Years

There's nothing better than you babe  
Can't wait to kiss you every day  
Can it really be, I got that special key  
To lock your heart in place  
What am I supposed to do?  
Wishing when you're in the other room  
You're the only one who can break through  
All I think about is pleasing you

A hundred years is not enough time with you  
I fantasize about all that we could do  
I wish you knew how much I really love you  
Don't go nowhere, baby,

All I need is more time, more time  
Just a little more time, more time  
Need a little more time, more time  
With you!

This morning when we kissed  
I felt everything you wanted to say  
No words even needed to be said  
You looked right in my eyes  
And I knew

Let me catch you staring at me  
Can't begin to describe that feeling  
Things are running through my mind  
Chills go down my spine  
You take me to bed  
I can't get enough of your smile  
One day I'll see it at the end of it now  
You put your hand in mine  
We'll leave the past behind  
And start our brighter days

A hundred years is not enough time with you  
I fantasize about all that we could do  
I wish you knew how much I really love you  
Don't go nowhere, baby,

All I need is more time, more time  
Just a little more time, more time  
Need a little more time, more time  
With you!

The seconds, the minutes, the hours  
Are just too precious to waste  
So when your arms are wrapped around me  
I can take on anything  
Can love transcend past this place?  
Coz when we're gone, I still think  
I love you, let me say it again

A hundred years is not enough time with you  
I fantasize about all that we could do  
I wish you knew how much I really love you  
Don't go nowhere, baby,

All I need is more time, more time  
Just a little more time, more time  
Need a little more time, more time  
With you!
