

# Jorja Smith, Goodbyes

how could we know  
that there wouldn't be tomorrow?  
no birds will sing  
but the bells will ring for you  
so far to go  
but you've already reached the light  
your new beginning  
chapters are written out for you

down here they're hurting  
from a broken heart  
trying to figure out  
how this is real

cause they're never coming back down  
they belong to the stars in the clouds  
Goodbyes good Times  
LOVE was all for you  
i'd out didn't say your Goodbyes  
don't worry, love will power through  
cause they're never coming back down  
they belong to the stars in the clouds

how do we grow  
if you're not moving with us  
constantly dark  
time will move in our favor  
they'll never know  
but they just keep on asking when

we're down here they're hurting  
from a broken heart  
trying to figure out  
how this is real

cause they're never coming back down  
they belong to the stars in the clouds  
Goodbyes good Times  
LOVE was all for you  
i'd out didn't say your Goodbyes  
don't worry, love will power through  
cause they're never coming back down  
they belong to the stars in the clouds

I am sorry that I never replied  
how was I to know this would be our last goodbye  
we can't look at the world tears in our eyes  
don't cry /3x

cause they're never coming back down  
they belong to the stars in the clouds  
Goodbyes good Times  
LOVE was all for you  
i'd out didn't say your Goodbyes  
don't worry, love will power through  
cause they're never coming back down  
they belong to the stars in the clouds
