

Jorja Smith, High

I took my time
Called up to say
Out of the silence
Don't think I ran away
How has your day been?
Tell me what's changed?
Are you still searching?
I think I'm doing the same thing
It's been so long
I wasn't there
Don't want you to feel like I, I didn't care
I went to find myself, I couldn't take you there, no, mm

'Cause where'd you run if you can't?
I wanna grow but I don't wanna trip
So what?
So where'd you run if you can't?
Just know one thing
Is that you're gonna always be high (Be high)

Always be high (Be high)

Always be high (Be high)

I've had my lows
You weren't always there for me
But time has shown
That I can love myself again
I always need my friends
But I need to find one in myself (Myself, myself)

'Cause where'd you run if you can't?
I wanna grow but I don't wanna trip
So what?
So where'd you run if you can't?
Just know one thing
Is that you're gonna always be high (Be high)

Always be high (Be high)

Always be high (Be high)

Always be high

Always be high (Be high)
