

# Joseph Arthur, Let's Embrace

I think the world belongs to me  
I want to set you freer than free  
(I want to touch you)

Come up to my place  
And then let's embrace  
And then let's replace  
Our fear with our faith

And come up to my place  
And then let's embrace  
And then let's replace  
Our fear with our faith

We are together now  
And love is our child  
Born from the unity  
Of our human heart  
(oooooh ooh ooh oooooh ooh ooh oooooh)

I think the sun is shining on me  
I can feel it  
God's eyes are looking down on me  
I will reveal it

Come up to my place  
And then let's embrace  
And then let's replace  
Our fear with our faith

And come up to my place  
And then let's embrace  
And then let's replace  
Our fear with our faith

And come up to my place  
And then let's embrace  
And then let's replace  
Our fear with our faith

And come up to my place  
And come up to my place  
And come up to my place  
And come up to my place
