

Joseph Arthur, Toxic Angel

Cold hearts pound all around
But i found my angel
In the desert looking all around
For someone to strangle
In chains
Like a mad dog barking over what you've done
So strange
That the one you need is the one you shun.
Could you follow me down
With a love like yours
I don't know if i'm able
To keep my feet on the ground
With a mind like mine you know it's never stable.
Are you near? (repeated 4 times)
All my dreams underneath the ground
But i found my angel
Kicked off of the merry-go-round
By some toxic stranger
In pain
Like the way you feel
When you know you can't complain
So strange
Like the one who saved you
Is the one you say you'll blame
Could you follow me down
With a love like yours
I don't know if i'm able
To keep my feet on the ground
With a mind like mine you know it's never stable.
