

Josh Golden, Get Ready For This

She said there's happiness here
Like the colors in a painting
Only resignating her heart
And I said that I would be there
Just to see that day coming
Win that race running for you
And I would hold you
But I'm afraid I might let you go
So don't go
Get ready for this
You're not ready for this
Time will fly but we'll stay the same
We'll be the reminescence
Get ready for this
She's not ready for this
We'll move on and be just fine
I can't find a way out
I can't find a way out
She said she'd be my ever after
Like the words on the pages
Hearts in our cages, before love
I said that I would be there
From the west to the east side
I'll be by your side, forever
And I would hold you
But I'm afraid I might let you go
So don't go
Get ready for this
I'm not ready for this
Time will fly but we'll stay the same
We'll be the reminescence
Get ready for this
She's not ready for this
We'll move on and be just fine
But I can't find a way out
Yeah I can't find a way out
And I've been trying to make up
A way to work out
But never until it would be
And I've been lying to myself
Saying it'll be alright
That it'll be okay
It's not okay
Get ready for this
I'm not ready for this
Time will fly but we'll stay the same
We'll be the reminescence
Get ready for this
She's not ready for this
We'll move on and be just fine
But I can't find a way out
No I can't find a way out
Get ready for this
I'm not ready for this
Time will fly but we'll stay the same
We'll be the reminescence
Get ready for this
She's not ready for this
We'll move on and be just fine
But I can't find a way out
No I can't find a way out
