

# Josh Gracin, I Would Look Good With You

In case you hadn't noticed  
I'm a logical guy  
I put two and two together  
And came up with you and I  
Made an informed decision  
My ducks are in a row  
Well I'm doing all this thinkin'  
Well I guess you ought to know  
Hey baby, I would look good with you

I'm a little too short  
You're a hair too tall  
I can but a stepladder ain't no trouble at all  
With my powers of persuasion  
And your cheerleader smile  
My uncanny way with numbers  
And your middle class style  
Hey baby, I would look good with you

'Cause everybody's beautiful  
If you take the time to see  
Don't have to be sensible  
Hey baby just as long as it's me

We can take a cue from Noah  
And build a really big boat  
You could work on your tan while we sail to Rio  
Don't matter where we're headed  
Don't matter what we do  
Got a sneaky suspicion  
And I'm pretty sure it's true  
Hey baby, I would look good with you

'Cause everybody's beautiful  
If you take the time to see  
Don't have to be sensible  
Hey baby just as long as it's me

'Cause everybody's beautiful  
If you take the time to see  
Don't have to be sensible  
Hey baby just as long as it's me

No one believed Columbus  
When he said the world wasn't flat  
Believe me when I tell you  
Right here is where it's at  
Hey baby I would look good with  
Hey baby I would look good with  
Hey baby I would look good with you
