

# Josh Rouse, Sunshine (Come On Lady)

Forget all your little problems  
Forget the boy you left at the bar  
I got a stash been savin' for months now  
California's not very far

Come on lady  
Take this bum and make him right  
You're my steady  
You're the one who makes me feel  
Sunshine

One that makes me feel sunshine

I wanna be your baby daddy  
I wanna be your self-employed  
So pack up the van and we'll go drivin  
To the coastal state  
Uh-huh

Come on lady  
Take this bum and make him right  
You're my steady  
You're the one that makes me feel

So come on lady  
Give this bum a sense of pride  
You're my steady  
You're the one that makes me feel  
Feel  
Sunshine

One that makes me feel sunshine  
One that makes me feel sunshine

One that makes me feel sunshine
