

# Joshua, Hawai Number One

Wake up in the morning and it's still the same  
gotta find something to eat I'm going insane  
but in my brain nothing to lose I cut my chain  
I took a one-way trip join me on the plane

I know a place of blue sky  
you won't see no rain, you won't see no pain  
you just gotta do your thang  
yeah, everything would be so cool  
if I didn't have to struggle like a goddamn fool...

let me fly away from here  
I don't wanna stay...

another day another night another time for fight  
why it must be so wrong when it could be so right  
Impala 64 Road 66  
lean your head on my shoulder 'cause I know you like this  
we could smoke together, be together, love each other  
if you're not happy here, you know we can go further  
I'm a free bird spread my wings and my words  
jump on my back and I show you the world...
