

# Joshua, Press To Call The Success

Ooh, I see the world going wild when I turn on TV  
what happened to these kids we used to be  
it seems like hell is closed and heaven is for free  
I don't know about you, but...

what I am, is what I wanna be  
where I stand, is where I wanna be  
but if they only knew  
glory and luxury don't last, but time passes  
they gettin' just the rest  
that makes me laugh how people waitin', standin'  
on the line to pass the test  
press to call the success...

it's like is the only way for them to get through  
but the man oinside the mirror tells you the truth  
watch what you askin' for 'cause it might come to you  
and you think it's all fun fun fun fun

do they know how hard this life can be?  
take it slow and you won't need to worry...

be true to this game and this game will be true  
first rule first boy tell me what you gon' do  
the industry dressed up all in black and blue  
patrollin', controllin' what's comin' outta you  
you want the fortune and fame then it's alright  
and I can give it to you then it's alright  
got you a place under the spotlight  
but you belong to me because I paid the price
