

Joshua Radin, Friend Like You

I like the way you're not afraid
You got the world planned in your mind
People say you cannot do
Well they don't know a friend like you

The girl you loved has gone away
Still too young to know her heart
She'll return your love renewed
Cause she'll never find a friend like you

When I had no one to call
All the world had shut me down
I showed up at your door so blue
I thank God I had a friend like you

Many times I've gone without
A home, a meal, a pair of shoes
If you had 3 you'd give me 2
There ain't no other friend like you
