

# Joshua Radin, Vegetable Car

Baby, you don't even know me  
But one day I'll get up the courage  
as you pass by, you'll see  
oh, baby  
one look just might save me  
I need you to slow by the corner  
stop right in front of me  
til' then, I'll see you hopefully through  
i do wish that you'd asked me to ride along  
it wouldn't be wrong to tell me more than I know about you  
she drives a vegetable car  
diesel Mercedes, green, two door  
I barely know who you are.  
Lisa Loeb glasses I'd sure like to ask you to stay  
baby, I need you to save me  
the one thing that my heart requires  
is that you admire me  
til then, I'll see you hopefully through  
i do wish that you'd asked me to ride along  
it wouldn't be wrong to tell me more than I know about you  
she drives a vegetable car  
diesel Mercedes, green, two door  
I barely know who you are.  
Lisa Loeb glasses I'd sure like to ask you to stay  
how do i know why the sight of you makes me weak  
each time i see you turn onto my street  
your hair is always up in a bun  
this girl's the one  
she drives a vegetable car  
diesel Mercedes, green, two door  
I barely know who you are.  
Lisa Loeb glasses I'd sure like to ask you to stay, don't go.
