

# Joshua, What U Doin'

Now I see you're not around  
I feel like a king without a crown  
and all around me just fall down  
no more smiling only frown  
but did you know you were the one  
now I gotta walk through the storm

we saying so long  
our love is gone...  
'cause what you doing to me got me jerkin' around  
what you say got my feelings falling on the ground  
and all those things and those lies that you put on my mind  
and I don't want you to keep on wastin' my time

who was right and who was wrong  
every day is the same old song  
this fight between us gets too strong  
you say you want your man at home  
but you know I'm a rolling stone  
I use to get it by my own

we saying so long  
our love is gone...  
'cause what you doing to me got me jerkin' around  
what you say got my feelings falling on the ground  
and all those things and those lies that you put on my mind  
and I don't want you to keep on wastin' my time
