

Joss Stone, Picnic for two

Darling, the sun is out
We've been waiting for a long time now
So let's not waste it
And take it while we can
Come on, let's drop out of town
Pick up some Ray and a bottle of Brown
We might just make
So let's take it while we can
We've been waiting for a light, bright summer, summer
I don't want no kiss from another lover
I'll be leaning on you
And a picnic for two
Let the music
Calm down
Let the sun set
Fall down
Just as the rain falls down
Take off my clothes and dance around
Come on let's taste it
Hmm, while we can
Darling, don't be afraid
I'll still be here at the end of the day
Even when those lonesome
Shadows fade
We've been waiting for a light, bright summer, summer
I don't want no kiss from another lover
I'll be leaning on you
And a picnic for two
So let the music
Calm down
Fall down
Hey, ooh ooh, yeah
Hmm, yes
We've been waiting for a light, bright summer, summer
I don't want no kiss from another lover
I'll be leaning on you
And a picnic for two
So let the music
Hey
Calm down
Let the sun set
Fall down
Let the music
Calm down
Let it all calm down
Let the sun set
Fall down
Let the music
Calm down
Ooh ooh
Fall down
