

Journey, I Would Find You

(Schon/T. Austin)

Many days have faded away and the time has passed,
Those were memories that have been by so fast,
I can't see you
I can't hear you
But I feel you

[Chorus:]
I would find you,
I would find you,
Well, I would find you,
I would find you

[Chorus]

Now that we know that we've been there and the time is running out,
That message was from the Lord without a doubt,
I can't see you
I can't hear you
But I feel you
Could it be that I feel so all alone
It's you that's driving me mad
You won't leave me alone
You have touched
