

Journey, With Your Love

On this day... To be standing here with you
There's no doubt: I know this love is true
See my tears... Only you can understand
A state of grace... I feel blessed to hold your hand
There's a room in my heart and you've unlocked
A door

That no one's ever opened before

[Chorus:]

With your love I'm not alone...

In your world: I'm never far away from home

A life I thought I'd never find...

In your eyes I see all that I am with your love

On my own... I searched for something more

In your arms... The kiss I've waited for

I was lost for words... To say what's in my heart

Just to be close... To the beauty that you are

If someone could see to the end of our lives

I know they'd find me there by your side

[Chorus]

I've walked among the lonely...

Watching lovers come and go

Fate finds us here as one... You are salvation to

My soul

[Chorus]

With your love

With your love
