Journey, With Your Love

On this day... To be standing here with you There's no doubt: I know this love is true See my tears... Only you can understand A state of grace... I feel blessed to hold your hand There's a room in my heart and you've unlocked That no one's ever opened before [Chorus:] With your love I'm not alone... In your world: I'm never far away from home A life I thought I'd never find... In your eyes I see all that I am with your love On my own... I searched for something more In your arms... The kiss I've waited for I was lost for words... To say what's in my heart Just to be close... To the beauty that you are If someone could see to the end of our lives I know they'd find me there by your side [Chorus] I've walked among the lonely... Watching lovers come and go

Fate finds us here as one... You are salvation to My soul [Chorus]
With your love
With your love
