

# Joy Electric, Come In, Brother

Come in, brother  
Show some holiday feeling  
Under wreaths and presents  
Where to find patience  
But we need to cry some more  
Hear me now, hear me out  
Years before we broke down  
Years before, years before

Melodies come so faintly now  
Memories seem so scarce  
Melodies come so faintly now  
Memories seem so scarce

Down the roads  
You make the most of your twenties  
Then we all grow old  
But you do sooner than most  
Just let me live before you die  
To feel you once is enough  
Let me make it right  
Before you go, it's alright

Melodies come so faintly now  
Memories seem so scarce  
Melodies come so faintly now  
Memories seem so scarce

Who are we, where are we going?
