Soon the goodness King will hear your heart  
From within the castle to his warm hearth  
Granting hope and wisdom to your soul  
The evil spell of sadness has been broken

In your heart there's a world of sadness  
I love you with all hope  
In your heart with my words  
I promise to love you with all hope  
And drum machine joy

Drum machine joy  
Drum machine joy

Soon the Goodness King will hear your heart  
From the Northern Kingdom comes a faint sound  
Growing stronger here before your hearth  
The chorus of the King has come to heal your heart

In your heart there's a world of sadness  
I love you with all hope  
In your heart with my words  
I promise to love you with all hope  
And drum machine joy
