

Joy Electric, Hansel (I Will Be Your Friend)

Hansel, I want you to know everything to make you better
All your fears and your doubts
With me they will be safe forever

Through the lonely years I will hold you
I will, I will
Through the emptiness you feel
I will, I will
I will be your friend

Hansel, years end, and how you have changed
But I will never
From old school days to now
I'm still here but you're still not here
