

# Joy Electric, Happiness And Life

I can see the sun rising high above the hills  
I can hear birds singing melodies of Him  
I see, I feel Your love all around me  
I know, I know Your Promise and joy inside me

You bring me happiness and life  
You take my sadness into Your hands

I can hear Your still voice  
Moving through my soul  
Whispering to me wonderful words  
That touch and heal  
I remember all that You gave me  
Your Son, Your Words, are living and making me feel
