

Joy Electric, Life In 1982 (Joy E. Vocal Version)

All you have to do is this
One bassline, cr-78 snare, tr-808 kick
The rest has already been done
Two decades ago, 1982, by nearly everyone

Life in 1982

kraftwerk, numan, the league
Their posters on the wall give me the ideas I need
From london city landscapes, to new york square
Boys dancing in black turtlenecks, girls bopping with big hair

Life in 1982

New wave beats and noises on a quiet suburban street
The manual's in your hand, but the world's not at your feet
Flock of Seagulls on the boom box at your friday night scene
You thought you saw the future, but the future stole your dreams
