

Joy Electric, Lily Pad The Forest Our Home

Here is where I love
Here is where my hope grows
I will always keep you with me here forever
You know that I hurt for the younger years
Don't change--just stay here with me

Lilypad the forest our home
All I want is made for us here
Lilypad the forest our home
All I want is to be here with you

Here we dance with trees
Here we sleep in the leaves
Midday offers sweet and sunny dewlit honey
If you chase the carol of heather faun
I'll keep you safe from the witches harm
