

# Joy Electric, Strawberry Heart

My love my love are words you used to say Before the days the light  
went dark in you When I look back our whole lives  
disappear I'm longing for the way it used to be

## CHORUS

Strawberry heart  
hold my hand before  
we fall apart  
strawberry heart  
kiss me once before  
our love departs

We used to be lost in each others eyes And everyday seemed like a  
new surprise Why can't it be like yesterday one more time  
For all the years I give my life to you
