

Joy Electric, Strawberry Heart

My love my love are words you used to say
Before the days the light went dark in you
When I look back our whole lives disappear
I'm longing for the way it used to be

CHORUS

Strawberry heart
hold my hand before
we fall apart
strawberry heart
kiss me once before
our love departs

We used to be lost in each others eyes
And everyday seemed like a new surprise
Why can't it be like yesterday one more time
For all the years I give my life to you
