

Joy Electric, Sweet Sweet Charity

There were yellow roses of delight
We pick them with a noon day smile
And kissed the petals gently, softly
Will we dance in circles slow
Until the starring sky breathes the breath of beauty on our soul?
Beauty on our soul

Sweet sweet charity
How long will it be
'Til I can sing your favorite song
Walk into your loving arms
So we can laugh and love again
Just like when we were friends?

There were moons to make the fields glow
Embrace and dance the mountaintops with me, my darling
Midnight comes
The falling of our snow is here
Oh, can't you see that this won't be forever?
This won't be forever
