

Joy Electric, The Carousel Of Progress

Famous words and lines
From the mouths of the metal creations
Spiral case design architects
Shown for infatuations

How is progress made
When it stops before its time?

They will feed you lies
With every unlasting invention
Camera snapshots
Black eyes behind every intention

How is progress made
When it stops before its time?
How I used to feel
Before they ended this ride

They will feed you lies
With every unlasting invention
They will feed you lies
With every unlasting invention.
