

Joy Electric, The Electric Joy Toy Company

Electric joy, building
Electric joy, build hope for the world
Building, electric joy
Build love for the world

We will be together
And I'll keep every word
Close and dear to my heart
Sealed with a kiss
We can roam the kingdom
We don't have to pretend
Hush your fears and I'll protect you
From evil within

Electric joy, building
Electric joy, build hope for the world
Building, electric joy
Build love for the world

We will build a castle
With the tools of our heart
We will fly over the rivers
Then the moon smiles
I will keep your heart from sadness
You will uplift my soul
With the tools of love and gladness
We build love and it grows
