## Joy Electric, We'll Last So Long

Seems so very nice of you Seems so very kind of you To stop and feel the loss of things When fear grew inside yesterday Forget about the sad ways So we can love so tenderly

Hear me and know me And promise you'll never leave Hold me and make me And promise me you'll never leave We'll last so long

Though we've lived on through these years We took with us our childhood fears To hurt and to haunt us so Tomorrow always comes again And with this thought we will begin If Jesus is between us
