

# Joy Enriquez, What Do You Want From Me

What do you want from me  
Everytime I see you, you're asking me  
Asking me to give you more from me  
Can't you see I'm giving you everything  
What do you want from me  
Everytime I see you, you're asking me  
Asking me to give you more of me  
Can't you see I'm giving you everything

I can no longer give you what I'm giving  
I can no longer be your wonder woman  
I am a human being, know that  
You've got to respect me, know that  
I have no idea who you think this is  
I have given all that I am bout to give  
When will you say thank you, know that  
I've had enough of you, know that

I am not your superwoman  
Not your slave and  
I am not the one to get no appreciation

What do you want from me  
Everytime I see you, you're asking me  
Asking me to give you more from me  
Can't you see I'm giving you everything  
What do you want from me  
Everytime I see you, you're asking me  
Asking me to give you more of me  
Can't you see I'm giving you everything

I know you brought me 'til you wanted something  
I know you brought me 'til you needed something  
Sometimes you could call me, know that  
Ask me how I'm doing, know that  
I try so hard to satisfy your needs  
I realize I'm only at your feet  
I'm trying to get good, know that  
I need a break from you, know that

I am not your superwoman  
Not your slave and  
I am not the one to get no appreciation

What do you want from me  
Everytime I see you, you're asking me  
Asking me to give you more from me  
Can't you see I'm giving you everything  
What do you want from me  
Everytime I see you, you're asking me  
Asking me to give you more of me  
Can't you see I'm giving you everything

Why you, why you, Why you wanna taught me  
(one who taught me how)  
You don't realize it, but you taught me how  
(one who taught me how)  
You are crazy, driving me crazy  
I just can't take it no more  
If you, if you, if you Won't respect me please  
If you won't open your eyes and respect me  
I'm not your superwoman, I need appreciation
