

# Juanita Dailey, Inside My Love

I had a dream last night, you see  
I dream that you were here with me  
I cry cause you're not really here  
And every moment, everyday  
I think of you in a special way  
Oh baby please come back to me

Inside my love  
Forever won't be long enough  
To show you baby just how much  
That I miss you  
Inside my love  
Bring back the joy  
That only you can make me feel  
Don't leave me with the memories  
Of you inside my love  
Inside my love

Who can say really what went wrong  
To make us break for so long  
But I know I want you here with me  
And if you feel the way I do  
Let's come together just us two  
And we'll be like we're once again

Inside my love  
Forever won't be long enough  
To show you baby just how much  
That I miss you  
Inside my love  
Bring back the joy  
That only you can make me feel  
Don't leave me with the memories  
Of you inside my love  
Inside my love

Cause I need you here with me  
And somehow you can see  
Just how great love can be  
ohhh...

And every moment, everyday  
I think of you in a special way  
Oh baby please come back to me

Inside my love  
Forever won't be long enough  
To show you baby just how much  
That I miss you  
Inside my love  
Bring back the joy  
That only you can make me feel  
Don't leave me with the memories  
Of you inside my love  
Inside my love  
ohhhh... yeah...

Bring back the joy  
That only you can make me feel  
Don't leave me with the memories  
Of you inside my love  
Inside my love

I had a dream last night, you see

I dream that you were here with me
