

Jucifer, Vulture Story

I know you got a great big hammer
I know you want a ten foot pole
I know you wanna see me stammer
you wanna see me lose control
you know you're a dead man
you know you're a big zero
I heard what you said man
I know you're a big fat hole

I know about your weekly planner
know all about the space you stole
I know that you despise me and
I know you wanna stain my soul

I know you're a weak man
I know you're a big ego
you don't have to speak
you prove that you're a big fat hole
