

Judas Priest, Giants in the Sky

Judas Priest prezentuje utwór "Giants in the Sky" z płyty Invincible Shield" (premiera 8 marca 2024)

The mighty have fallen
The memories fading
The legend still lives on
The sound of the giants
The echoes remaining
Will never be forgot

Homage to the legends
Till the bitter end
Leaving such a legacy my friends

Giants in the sky
You won't ever die
Giants in the sky
You won't ever die

The sound of their music
Alive in the cosmos
There's power in the air
The world is on fire
Their energies blazing
They left us all they had
Homage to the legends
Till the bitter end
Leaving such a legacy my friends

Giants in the sky
You won't ever die
Giants in the sky
You won't ever die

If you only knew just how much you mean to me
And how your love still gets me through the day
I'm not alone when you care
Having someone that's always there
Helps me pull through you always do
You're never far away

Homage to the legends
Till the bitter end
Leaving such a legacy my friends

Giants in the sky
You won't ever die
Giants in the sky
You won't ever die
