

Judas Priest, Turn On Your Light

Why do I have to wait so long
Before you come into my life again
Seems as though forever until
I can be here by your side till then
I think you feel the same way too
You know you make my dreams come true
If you'll just turn on your light
Let me see it shining through the night
When I'm far away from here
I'll hold all the memories so clear
If I only have the choice
I would stay so let me hear your voice
I think you feel the same way too
You know you make my dreams come true
If you'll just turn on your light
Let me see it shining through the night
