

# Jude Harrison, Just the beginning

Chase the dream down the highway  
Dont care where  
Its going my way  
Sky on top, rain behind me  
Theres no looking back  
I want you to need me like I need you  
Never thought Id find something so pure  
We thought wed be somewhere else  
We started a long time ago  
We thought wed be anywhere else  
Dont think that its over  
I know that the world belongs to us  
And its just the beginning  
My heart races a mile a minute  
Some days get lost, then youre in it  
Hold my hand, lets jump in and  
See what lies ahead  
You are the mirror, I see myself in  
Never thought Id find so much within  
We thought wed be somewhere else  
We started a long time ago  
We thought wed be anywhere else  
Dont think that its over  
I know that the world belongs to us  
And its just the beginning  
You are the mirror, I see myself in  
Never thought Id find so much within  
We thought wed be somewhere else  
We started a long time ago  
We thought wed be anywhere else  
We thought wed be somewhere else  
We started a long time ago  
We thought wed be anywhere else  
Dont think that its over  
I know that the world belongs to us  
And its just the beginning  
Oh, (just the beginning)  
Oh, just the beginning
