

Jude Harrison, Over rated

You think it's cool, just cause they're telling you
You gotta have it, then you'll never miss it at all
You need the thrill, just cause it's killing you
You're so close, so don't take it too far
Where there's smoke you'll find a mirror
It's over rated
I've watched it fade
So please don't give in
Don't forget what you believe in
It's over rated
It's not worth chasing
Don't you know that
You'll love to love and then you'll hate it
Love and lost and everything between
It's perfect, it's poison that made me fall
You want it bad
Don't want it to skip away
It's too fast
Gonna drag you down
Where there's smoke you'll find a mirror
It's over rated
I've watched it fade
So please don't give in
Don't forget what you believe in
It's over rated
It's not worth chasing
Don't you know that
You'll love to love and then you'll hate it
Coming close now, any clearer
With every breath you're going deeper
But I will pull you back to me
It's over rated
I've watched it fade
So please don't give in
Don't forget what you believe in
It's over rated
It's not worth chasing
Don't you know that
You'll love to love and then you'll hate it, yeah
Its over rated
Its over rated (over rated)
