

Jude, I Will Not Die

1-2-3-4

It only hurts me when I'm awake
It seems to die with dreaming
and there's only so much that I can fake
when my whole life's careening down
I will not die

It only kills me cause I'm alive
and living this disaster
and it's all I can do now to survive
I live to beat my master down
I will not die
down I will not die

when I'm well, I long to be
only in love with you
but I guess I'll never be
oh and you know it's true

it does not stop that we all die
I know this trips to slaughter
but if only I could let me cry
I feel healing water oh down
I will not die
down I will not die
down I will not die
