

# Jude, I Will Not Die

1-2-3-4

It only hurts me when I'm awake  
It seems to die with dreaming  
and there's only so much that I can fake  
when my whole life's careening down  
I will not die

It only kills me cause I'm alive  
and living this disaster  
and it's all I can do now to survive  
I live to beat my master down  
I will not die  
down I will not die

when I'm well, I long to be  
only in love with you  
but I guess I'll never be  
oh and you know it's true

it does not stop that we all die  
I know this trips to slaughter  
but if only I could let me cry  
I feel healing water oh down  
I will not die  
down I will not die  
down I will not die
