

# Judie Tzuke, Welcome To The Cruise

Don't want no darkness in my days, I've got to tell you that  
Don't want no clouds to fill my skies, no more goodbyes  
I know that this time you have come to me, and run in on me  
Good love is running in on me  
Don't try to dim my eyes, don't ever try to live my life

Welcome to the cruise  
Love come down and run in on me

No words from me will change your ways, I want to tell you that  
Nothing that I see will change your days, nothing will change  
'Cause I know this time you have come to me, come to run with me  
I know that you will run with me  
Don't try to take my time, don't question what is on my mind

Welcome to the cruise  
Come on down and run in with me

Welcome to the cruise  
Don't want no darkness in my days, I've got to tell you that  
Don't want no clouds to fill my skies  
Don't want the earth, no crooked lies, don't want the night  
No more goodbyes
