

# Juemilia, All the things she said (English)

All the things she said  
All the things she said  
Running though my head  
All the things she said  
All the things she said  
This is not enough  
Rain never stops, dirty moon  
Both of you and I were flying in the sky  
It's a miracle moment  
I don't want to forget, or I can't forget  
It's like the shadow, smiling with cold eyes  
Why? I just want to be free!  
I can't open the door...  
All the things she said  
All the things she said  
Running though my head  
All the things she said  
All the things she said  
This is not enough  
I see love between us  
Only she knows what I mean  
I spread my arms and screamed as if I can reach over the sea  
The sun raise up too early, nobody can stop it  
I just love you, it's the only reason that I'm here  
I can't leave you  
going of my head  
Who am I? Where am I going?  
I can't go back anywhere anymore!  
Don't look at me like that  
Have I crossed the line?  
All the things she said  
All the things she said  
Running though my head  
All the things she said  
All the things she said  
This is not enough
