

# Juice, Goodbye My Love

I've been thinking of us these days  
And how we changed from the way that we were  
Oh, Baby can't you feel where slipping away  
And it doesn't feel the same way at all  
So I say to you

Goodbye my love  
Goodbye, goodbye now  
Goodbye, now the happy days are over  
So long and I won't shed no tears at all  
No I'll put all those memories away

No more blindly believing a lie, no  
I'll make it through on my own each day  
Oh, Baby can't you see love turned away  
It can never be the same anymore  
So I say to you

Goodbye my love  
Goodbye, goodbye now  
Goodbye, now the happy days are over  
So long and I won't shed no tears at all  
No I'll put all those memories away

I never meant to hurt you, no,no  
I know we failed but at least we tried  
Boy you know time changes everything  
So goodbye to my love  
It's all that I can do  
So I say to you

Goodbye my love  
Goodbye, goodbye now  
Goodbye, now the happy days are over  
So long and I won't shed no tears at all  
No I'll put all those memories away

Goodbye...this time I really mean it  
Goodbye  
Goodbye, now the happy days are over  
So long and I won't shed no tears at all  
No I'll put all those memories away

Goodbye now  
Goodbye, goodbye, goodbye my love  
Now the happy days are over  
So long and I won't shed no tears at all  
No I'll put all those memories away

Goodbye  
This time i really mean it  
Goodbye my love
