

Julia Darling, Overloading God

Overloading God can you hear me?
Oh, can you help me?
They're caging in my soul
Overloading angels
Can you bless me?
Oh, can you save me?
My bridges slowly burn

I'm turning into them

And I don't know why,
I feel straight when I'm high
It's not my dream to fly,
In anybody's sky

You left me,
You left me,
In the dark
Overloading saints
Can you feel me?
Oh, can you touch me?
I'm here behind my smile

You left me in the dark
Overloading God, can you hear me?
Overloading saints, can you feel me?
I'm another sign

And I don't know why,
I feel straight when I'm high
It's not my dream to fly,
In anybody's sky
